

**NEW PRODUCT  
ANNOUNCEMENT**

# LG Commercial Laundry Equipment is now available in Australia.

# LG

Life's Good

## A New Era in Commercial Laundry

Offering 10kg front load washers with electric and gas matching tumble dryers. In coin and manual operation. Side by side and space saving stacked units available..

## LG Commercial features :

- ◆ **Large Capacity and Value for money :** Designed for loads up to 10kg, the Giant C washers and dryers have up to 25% larger load capacities.
- ◆ **Water wise :** LG's Front-loading washers offer commercial cleaning performance using less water and detergent than comparative machines.
- ◆ **No Belts or Pulleys :** LG Commercial washers utilise patented direct drive motor technology.
- ◆ **Stacked systems and stand alone models :** The LG Giant C range will be available as stand alone machines or stack Washer / Dryer or Dryer / Dryer combos.
- ◆ **Coin or non-coin operation :** Digital coin operation will be available in all models.
- ◆ **Auto-Detergent dosing Systems :** Equipe Solutions have developed a simple plug in system for Brightwell detergent dosing pumps. Automatic liquid detergent feeds eliminate messy powders and offer lower operational costs for end-users with more consistent wash results ( optional ).
- ◆ **Electrical Approval :** LG Commercial washers and dryers have electrical approval to Australian Standard AS/NZS:60335.2.7:2009
- ◆ **Fully Programmable Fast Wash Cycles :** Standard wash cycles starting from 37 minutes.

**Imported nationwide by  
Equipe Solutions Pty Ltd.  
LG Commercial products  
are already well  
established in the US, UK  
and Asia.**
